25 YEAR RE-REVIEW

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

A. There is not such a plant as the "Thumfold Aluminum plant at Szöny", but there is a plant at Almasfüzitő. It is the "Dunavölgyi Timföldgyár R.T." (Danube Valley Alumina Co. Ltd.) 25X1

The two towns (Szőny and Almasfüzitő) are adjacent. The worker's quarters of the alumina plant are located at Szöny. The "Dunavölgyi Timföldgyár R.T." is the largest Hungarian alumina plant. The annual alumina production was 60 thousand metric tons in 1950. During 1951 and 1953 it was expanded. Its present annual production is about 110 thousand metric tons of alumina a year.

The plant has never been converted. Its present function is the production of alumina. 25X1

This plant could not have been converted to a uranium processing plant. 25X1

[REDACTED] It was erected during the war (1942) and was owned at all times by the Hungarian State. Its output is about 800 metric tons per day (6,000 barrels). The plant was seriously damaged by air raids in 1943 and 1944. At the present time it is entirely rebuilt. This plant is independent of the refinery at Almasfüzitő. The plant at Almasfüzitő was owned before the war by the Socony Vacuum Co., and has an output of 400 metric tons per day (about 3000 barrels). This "Vacuum" plant was also very seriously damaged in 1943, but after the war it was rebuilt.
